

# Blue Cross and Blue Shield of North Carolina Essential QS Formulary

April 2024

Please consider talking to your doctor about prescribing formulary medications, which may help reduce your out-of-pocket costs. This list may help guide you and your doctor in selecting an appropriate medication for you.

The medication formulary is regularly updated. Please visit [www.bluecrossnc.com](http://www.bluecrossnc.com) for the most up-to-date information.

To search for a drug name within this PDF document, use the **Control** and **F** keys on your keyboard, or go to **Edit** in the drop-down menu and select **Find/Search**. Type in the word or phrase you are looking for and click on **Search**.

## Member guide to covered medications on the Essential Formulary

This guide lists the approved brand name and generic prescription medications that have been reviewed by Blue Cross and Blue Shield of North Carolina (Blue Cross NC). Please refer to this formulary guide for information about medications covered by this formulary, and present this guide to your doctor if you require a prescription. **This guide was current at the time of printing and is subject to change.**

The Formulary List is subject to change at any time. It is reviewed quarterly to examine new medications and new information about medications that are already on the market concerning safety, effectiveness and current use in therapy.

There are varying reasons changes are made to the medications listed in the member guide to covered medications:

- The tier level of a medication included on the medication list may increase (change to a higher tier or non-covered) when an FDA-approved bioequivalent generic medication becomes available.
- Newly marketed prescription medications may not be covered until the Pharmacy & Therapeutics Committee has had an opportunity to review the medication, to determine whether the medication will be covered and if so, which tier will apply based on safety, efficacy and the availability of other products within that class of medications.
- Change in the cost of the medication and/or in the classification of the medication by the U.S. Food and Drug Administration (FDA) or nationally-recognized medication databases (e.g., Medispan).

A formulary is a list of prescription medications covered by a health plan. Blue Cross NC Pharmacy & Therapeutics (P&T) Committee reviews medications at least quarterly. This includes ongoing reviews of clinical information about new medications and reviews of new safety and efficacy information about older medications. The majority of Blue Cross NC's P&T Committee is composed of practicing physicians and pharmacists independent of Blue Cross NC. Tier placement of prescription medications in the formulary may be determined by: the effectiveness and safety of the medication, the cost of the medication, and /or the classification of the medications by the U.S. Food and Drug Administration (FDA) or nationally-recognized medication databases (e.g., Medispan). For a more complete listing of medication coverage and costs, you may use our Find a Drug search at [www.bluecrossnc.com](http://www.bluecrossnc.com).

Please refer to your member guide for detailed information regarding your pharmacy benefits, including your benefit design, out-of-pocket costs, prior review, quantity limitation and restricted access medications, and applicable exclusions. You may also call Blue Cross NC Customer Service at the number listed on the back of your ID card to verify prescription medication benefits.

## Formulary Tiers

The 4-Tier Essential Formulary cover medications approved by the United States Food & Drug Administration (FDA), within existing benefits. The plan design determines the member's payment obligation.

### 4-Tier Formulary

Definitions for a four-tiered benefit structure:

- Tier 1: The prescription medication tier which consists of the lowest cost tier of prescription medications, most are generic
- Tier 2: The prescription medication tier which consists of medium-cost prescription medications, most are brand-name prescription medications
- Tier 3: The prescription medication tier which consists of higher-cost prescription medications, most are brand-name prescription medications, and some specialty medications
- Tier 4: The prescription medication tier which consists of the highest-cost prescription medications, most are specialty medications

## Generic medications

**In most cases, choosing a generic medication equivalent, when available, will mean significant savings to you.** We encourage you to discuss with your physician whether a generic alternative is available as these medications represent safe, effective treatment options. Especially for medications that are taken daily and refilled frequently, you will experience the long-term savings of a lower medication payment month after month. **If you choose a brand name prescription medication and a generic equivalent is available, you may be subject to a reduced benefit and a higher out-of-pocket expense.**

## Compounded prescriptions

Compounded prescriptions contain two or more medications mixed together. Compounded prescriptions are processed according to member benefits. To be eligible for coverage, compounded medications must contain at least one ingredient that is defined as a prescription medication and must not be a copy of a commercially available product. Compounded medications may be subject to prior review and benefit exclusion.

## Prior review, restricted-access, non-formulary exception and quantity limitations

Under some benefit plans, certain medications may be subject to prior review, quantity limitations, or restricted-access programs. Blue Cross NC's P&T Committee reviews the clinical criteria for these programs.

The different types of review include:

- **Prior Review (PA)\*:** Your provider needs to review our clinical criteria and confirm that you meet the requirements.
- **Quantity Limitations (QL)\*:** Your provider needs to review our clinical criteria and confirm that you meet the requirements for the amount requested. You can still receive the medication without our review and approval, just not over a set amount.
- **Restricted Access/Step Therapy (RA/ST)\*:** Your provider needs to confirm that you have tried specific, non-restricted medication(s) first and that it was ineffective or harmful to you in the past (and the provider believes it will be ineffective or harmful again). You need to have this done before you can receive the other restricted medication.
- **Nonformulary (NF)\*:** Providers will need to confirm that you have tried formulary alternatives first and they were ineffective or harmful to you. Also, medication-specific clinical criteria must be met before approval. A nonformulary medication is one that is not included in the list of medication that are eligible for benefits under your Blue Cross NC plan.

\*Please see "Covered Services" and "Glossary" in your benefit booklet for more information.

Blue Cross NC creates criteria for medications which fall under the review types listed above. This criteria explains what conditions must be met for a medication to be covered under your benefits. Some of this may be technical medical information, but it's available for you to read and discuss with your provider. Criteria is available at the following website: <https://www.bluecrossnc.com/understanding-insurance/how-drug-benefits-work/prior-review-and-limitations>

**PLEASE NOTE:** If you change your health plan, your provider may need to tell us again that you have met our clinical criteria under your new plan.

The FDA is responsible for approving medications for use based on clinical data proving the medication is safe and effective for that specific use. Blue Cross NC's prior review, restricted-access, non-formulary exceptions and quantity limitations programs follow FDA-approved uses for these medications. However, Blue Cross NC recognizes that in many cases, "off-label" (indications not approved by the FDA) uses of prescription medications may be acceptable. In determining the acceptability of off-label uses, Blue Cross NC utilizes several sources of clinical information including but not limited to 1) nationally recognized clinical references including American Hospital Formulary Service Medication Information; 2) the results of at least two randomized controlled clinical studies that support a specific off-label use, and that are published in peer-reviewed professional medical journals; and 3) consultations with internal and external physician experts regarding community standards. Additional searches for current supporting medical literature may be performed utilizing standard electronic databases.

## Specialty medications

These medications, as classified by Blue Cross NC, generally have unique uses, require special dosing or administration, are typically prescribed by a specialist provider and are significantly more costly than alternative medications or therapies. Most specialty medications can be found on Tier 4, but some may be found on a lower tier.

Some of these specialty medications will need to be filled at a participating specialty pharmacy in our network. These medications are identified in the specialty column of the formulary guide. Call the customer service number on the back of your Blue Cross NC ID card to determine which pharmacy can fill your specialty medication prescription.

## Affordable Care Act

Please note, some medications may have limited or \$0 cost-sharing under the Affordable Care Act (ACA); examples of categories of medications that may be subject to limited or \$0 cost share include aspirin, breast cancer preventive, HIV prevention, fluoride supplements, folic acid supplements, iron supplements, tobacco cessation, immunizations (including but not limited to, influenza, shingles and pneumonia), and some contraceptive medications and devices. You may find additional information about these medications at: [www.bluecrossnc.com/preventive](http://www.bluecrossnc.com/preventive). These medications are identified in the ACA column of the formulary guide. If you require a medication, i.e. an oral contraceptive, that is not currently provided at a zero dollar cost share, an exception process does exist. More information about this process can be found at [www.bluecrossnc.com/umdug](http://www.bluecrossnc.com/umdug). If you do not find the medication you are searching for, contact the customer service number on the back of your Blue Cross NC ID card to find out if the medication is available over the counter or is covered under your medical benefit.

## Diabetic and Respiratory Supplies

Please note, some diabetic and respiratory supplies may pay either with a 25% coinsurance or a group determined coinsurance or copay amount. Your plan benefit will supersede any of the tier information in this document, in the case of contradictions within this publication. If you have any additional questions about your plan benefit for diabetic or respiratory supplies, please contact the customer service number on the back of your Blue Cross NC ID card.

## Weight Loss

Coverage of drugs used for weight loss may be subject to benefit exclusion based on member benefit. A list of drugs that are FDA approved for weight loss is listed in the formulary document, under the "ADHD/Anti-Narcolepsy & Anti-Obesity/Anorexics" heading. Note: this list is not all inclusive, and is subject to change.

## Medications with over the counter (OTC) therapeutic alternatives

In some instances, prescription drugs may have therapeutic alternatives that are sold over the counter (do not require a prescription). Coverage of these prescription drugs with OTC therapeutic alternatives may be subject to benefit exclusion. Please see the member guide for more information. A list of prescription drugs with over the counter therapeutic alternatives can be found online at: [www.bluecrossnc.com/umdrug](http://www.bluecrossnc.com/umdrug).

## Limited Distribution medications

Limited Distribution medications (LD) are medications where the manufacturer chooses to limit the distribution of the medication to only a few pharmacies, or the Food and Drug Administration (FDA) requires this restriction during the medication approval process. This type of restricted distribution helps the manufacturer keep track of medication inventory and ensure that special dosing or lab monitoring requirements are followed to minimize any risks associated with the LD medication. Medications which have restrictions on where the member may obtain them are identified in the LD column of the formulary guide.

## Using the member guide to the Essential Formulary

The Medication List is organized into broad categories (e.g., ANTI-INFECTIVE AGENTS). The graphic below shows the information that is provided in each column of the medication list and is an example only. Please use the medication search function to find current information for medications on the medication list.

1 Drug Name	2 Drug Tier	3 Specialty	4 Prior Review	5 Restricted Access	6 Quantity Limits	7 ACA	8 Limited Distribution
<b>ANTINEOPLASTIC AGENTS</b>							
<b>ANTINEOPLASTICS</b>							
ACTIMMUNE - interferon gamma-1b inj 100 mcg/0.5ml (2000000 unit/0.5ml)	6	•					•
AFINITOR - everolimus tab 2.5 mg	5	•	•	•	•	•	•
AFINITOR - everolimus tab 5 mg	5	•	•	•	•	•	•
AFINITOR - everolimus tab 7.5 mg	5	•	•	•	•	•	•
AFINITOR - everolimus tab 10 mg	5	•	•	•	•	•	•
AFINITOR DISPERZ - everolimus tab for oral susp 2 mg	5	•	•	•	•	•	•
AFINITOR DISPERZ - everolimus tab for oral susp 3 mg	5	•	•	•	•	•	•

- 1 The first column of the chart lists the medication name. Generic medications are listed in lowercase **boldface**. Brand name medications are capitalized.  
Separate medication entries are required for some dosage forms such as extended-release and delayed-release.
- 2 The second column indicates the Tier level.  
Note: If a medication displays an "A" in the Medication Tier column, this indicates the medication may only be covered if a member meets the criteria for \$0 copay under the Affordable Care Act.
- 3 The third column indicates if the medication is a Specialty medication and needs to be filled at a participating specialty pharmacy in our network.
- 4 The next three columns indicate the Pharmacy Program(s) that apply to the prescription medication (e.g., Prior Review, Restricted Access and Quantity Limitations). If an indicator is present in the column(s), then the Pharmacy Program applies.

- 5 The seventh column indicates if the medication may have limited or \$0 cost-sharing under the Affordable Care Act (ACA). Benefits may apply.
- 6 The last column indicates if the medication is considered Limited Distribution.

## Non-Discrimination and Accessibility Notice

### Discrimination is Against the Law

- Blue Cross and Blue Shield of North Carolina (“BCBSNC”) complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex.
- BCBSNC does not exclude people or treat them differently because of race, color, national origin, age, disability, or sex.

#### BCBSNC:

- Provides free aids and services to people with disabilities to communicate effectively with us, such as:
  - Qualified interpreters
  - Written information in other formats (large print, audio, accessible electronic formats, other formats)
- Provides free language services to people whose primary language is not English, such as:
  - Qualified interpreters
  - Information written in other languages
- If you need these services, contact Customer Service **1-888-206-4697**, TTY and TDD, call **1-800-442-7028**.
- If you believe that BCBSNC has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability, or sex, you can file a grievance with:
  - BCBSNC, PO Box 2291, Durham, NC 27702, Attention: Civil Rights Coordinator- Privacy, Ethics & Corporate Policy Office, Telephone **919-765-1663**, Fax **919-287-5613**, TTY **1-888-291-1783** [civilrightscordinator@bcbsnc.com](mailto:civilrightscordinator@bcbsnc.com)
- You can file a grievance in person or by mail, fax, or email. If you need help filing a grievance, Civil Rights Coordinator - Privacy, Ethics & Corporate Policy Office is available to help you.
- You can also file a civil rights complaint with the U.S. Department of Health and Human Services, Office for Civil Rights, electronically through the Office for Civil Rights Complaint Portal, available at <https://ocrportal.hhs.gov/ocr/portal/lobby.jsf>, or by mail or phone at: U.S. Department of Health and Human Services 200 Independence Avenue, SW Room 509F, HHH Building Washington, D.C. 20201 **1-800-368-1019**, **800-537-7697** (TDD). Complaint forms are available at <http://www.hhs.gov/ocr/office/file/index.html>.
- This Notice and/or attachments may have important information about your application or coverage through BCBSNC. Look for key dates. You may need to take action by certain deadlines to keep your health coverage or help with costs. You have the right to get this information and help in your language at no cost. Call Customer Service **1-888-206-4697**.

**ATTENTION:** If you speak another language, language assistance services, free of charge, are available to you. Call 1-888-206-4697 (TTY: 1-800-442-7028).

**ATENCIÓN:** Si habla español, tiene a su disposición servicios gratuitos de asistencia lingüística. Llame al 1-888-206-4697 (TTY: 1-800-442-7028).

**注意:** 如果您講廣東話或普通話，您可以免費獲得語言援助服務。請致電 1-888-206-4697 (TTY : 1-800-442-7028)。
