allianceRx Walgreens + PRIME

2021 Service Benefit Plan Specialty Drug List

If you are a member or health-care provider and have specialty drug-specific questions, please call 1-888-346-3731 weekdays from 7 a.m. to 9 p.m. or weekends from 8 a.m. to 6:30 p.m. Eastern time. You can also visit fepblue.org/pharmacy 24/7.

The Blue Cross and Blue Shield Service Benefit Plan maintains a list of specialty prescription drugs. Coverage of and out-of-pocket costs for drugs on this list may be different under Basic Option, Standard Option and FEP Blue Focus. Please select your plan, using the Specialty Drug Cost Tool, to confirm your coverage and cost information. The specialty drug list is updated monthly and is subject to change without notice. Changes may appear prior to their effective date.

Specialty drugs are prescribed to treat complex conditions such as multiple sclerosis, hemophilia, hepatitis C and rheumatoid arthritis. These high cost drugs also have one or more of the following traits: they are injected or infused (but some may be taken by mouth); they have unique storage or shipment needs; more education and support are needed to help you use the drugs properly, and they are usually not stocked at retail pharmacies.

Please Note: The self-injectable formulation of the drug with an asterisk (*) next to them are only covered under the pharmacy benefit.

allianceRx Walgreens + PRIME

2021 Limited Distribution Drug List

Limited Distribution Drugs (LDD): In some cases, a manufacturer may limit the number of pharmacies it allows to carry (or distribute) a Limited Distribution Drug. Or sometimes a condition of the Food and Drug Administration's (FDA) drug approval process may require a drug to be in the LDD category.

Limited distribution helps the manufacturer carefully keep track of drugs that have special dosing or lab monitoring requirements, or that need to be followed very closely to ensure that any risks that are associated with the LDD are minimized.

You may get the Limited Distribution Drugs listed below through a specific Preferred retail pharmacy with the Specialty Drug Pharmacy Program copayments under the Standard Option and Basic Option. Please contact the Specialty Pharmacy Program at 1-888-346-3731 for assistance with finding the appropriate pharmacy.

(PA) – Requires Prior Authorization UPPER CASE - Brand Name Drug	Bold Lower Case - Generic Drug * - Covered under Pharmacy Benefit Only	^ - Covered under Medical Benefit Only [1] - Limited Distribution Drugs

The Blue Cross and Blue Shield Service Benefit Plan maintains a list of specialty prescription drugs. Coverage of and out-of-pocket costs for drugs on this list may be different under Basic Option, Standard Option and FEP Blue Focus. Please select your plan, using the Specialty Drug Cost Tool, to confirm your coverage and cost information. The specialty drug list is updated monthly and is subject to change without notice.
