Blue Cross and Blue Shield of Kansas is an independent licensee of the Blue Cross Blue Shield Association. BLUE CROSS®, BLUE SHIELD® and the Cross and Shield Symbols are registered service marks of the Blue Cross Blue Shield Association, an association of independent Blue Cross and Blue Shield Plans. Accredo is a specialty pharmacy that is contracted to provide services to Blue Cross and Blue Shield of Kansas members and is not affiliated with Blue Cross and Blue Shield of Kansas.

Introduction

The attached Formulary for BlueCare Products shows covered drugs for a broad range of diseases.

Generic drugs are shown in lower-case **boldface** type. Most generic drugs are followed by a reference brand drug in (parentheses). Some generic products have no reference brand.

Brand prescription drugs are shown in capital letters followed by the generic name.

The Formulary for BlueCare Products is organized into broad categories (e.g. Anti-Infective Agents). Within most categories, drugs are sub-grouped by drug class (e.g. Penicillins) or by use for a specific medical condition (e.g. Diabetes).

Members are encouraged to show this list to their physicians and pharmacists. Physicians are encouraged to prescribe drugs on this list, when right for the member. However, decisions regarding therapy and treatment are always between members and their physician.

The current version of the Formulary for BlueCare Products is available at the BCBSKS website at **www.bcbsks.com** or by calling BCBSKS customer service at 1.800.432.3990. **Online pharmacy tools** are available through the Prime Therapeutics website at **www.MyPrime.com**. You can find drug cost estimates or check if a particular drug is on the Formulary for BlueCare Products.

How Formulary Drugs Are Selected for BlueCare Products

Drugs on this list are selected based on the recommendations of a committee made up of physicians and pharmacists from throughout the country.

Both drugs that are newly approved by the U.S. Food and Drug Administration (FDA) as well as those that have been on the market for some time are considered. Drugs are selected based on safety, efficacy, cost and how they compare to other drugs currently on the list.

Formulary Tiers

This prescription benefit is multi-tiered, placing prescription drugs into one of six copay/coinsurance levels:

- Preferred Generic Drugs (Tier 1)
- Non-Preferred Generic Drugs (Tier 2)
- Preferred Brand Drugs (Tier 3)
- Non-Preferred Brand Drugs (Tier 4)
- Preferred Specialty Drugs (Tier 5)
- Non-Preferred Specialty Drugs (Tier 6)
- Drugs Subject to Medical Benefit (M)
- Drugs that may be covered if criteria for \$0 copay under the Affordable Care Act are met (A)

Affordable Care Act (ACA) Preventive

Drugs marked in the ACA column are covered at \$0 cost share when meeting the conditions outlined under the Affordable Care Act. Examples of categories of drugs that may be subject to \$0 cost share include aspirin, breast cancer preventive, fluoride supplements, folic acid supplements, HIV pre-exposure prophylaxis, iron supplements, tobacco cessation, statins, and FDA approved contraceptive methods. If you do not find the drug you are searching for, contact BCBSKS to find out if the drug is available over the counter or is covered under your medical benefit.

Specialty Prescription Drugs

Certain medical conditions may require the use of a “Specialty Drug.” These drugs typically meet one or more of the following characteristics:

- High cost due to treatment of complex conditions
- Self-injected, inhaled or taken orally
- Special handling or storage
- Strict compliance and patient support
- Additional education and support required from a health care professional
- Usually not stocked at retail pharmacies
- May only be available through limited distribution arrangements

Your prescription drug benefit may require you to use a designated specialty pharmacy to be eligible for benefits. The designated specialty pharmacy is Accredo.

Specialty drugs are noted next to the medication with a dot under the Specialty Column. The specialty dot indicates that the medication is subject to any designated specialty pharmacy requirements of your prescription drug benefits. Cost share of medications marked with a dot in the specialty column are determined by the tier listed on the formulary. You may also find the Specialty Drug List under the Forms section of myprime.com.

Through the designated specialty pharmacy, medications and supplies will be delivered to you or to your doctor’s office.

To order specialty medications:

- Have your prescriber call or fax your prescription to Accredo at 833-721-1620 or fax to 888-302-1028.
- A coordinator will contact you to arrange delivery of your medication.

If you have questions about your specialty pharmacy benefit, please call the phone number on the back of your ID card.

Oral oncology drugs subject to the medical benefit are listed as drug tier M.

Step Therapy

Your benefit plan may include a step therapy program. This means you may need to try another proven, cost-effective medication before coverage may be available for the drug included in the program. Many brand drugs have less-expensive generic or brand alternatives that might be an option for you. If a step therapy is required for a medication listed in this document, it will be noted next to the medication with a dot under the step therapy column.

Prior Authorization

Your benefit plan may require prior authorization for certain drugs that are high-cost or have the potential for misuse. This means that your doctor will need to submit a prior authorization request for coverage of these medications, and the request will need to be approved, before the medication will be covered under your plan. If a prior authorization is required for a medication listed in this document, it will be noted next to the medication with a dot under the prior authorization column.

Quantity Limits

Drug quantity limits help encourage medication use as intended by the FDA. Quantity limits are placed on medications in certain drug categories. For the medications listed in this document, if a quantity limit applies, it will be noted next to the medication with a dot under the quantity limits column.

A list of medications subject to quantity limits may be found at [Quantity Limit List](#). Limits may include: quantity of covered medication per prescription and/or quantity of covered medication in a given time period. If your doctor prescribes a greater quantity of medication than what the quantity limit allows, you can still get the medication. However, you will be responsible for the full cost of the prescription beyond what your coverage allows.

There may also be limits for members within a certain age range.

Excluded Drugs

Drugs not found listed in this Formulary may be excluded from coverage. Drugs excluded from coverage will be allowed if certain exception criteria are met.

The criteria may be found at [Exception Criteria](#).
