Blue Cross and Blue Shield of Kansas is an independent licensee of the Blue Cross Blue Shield Association. BLUE CROSS®, BLUE SHIELD® and the Cross and Shield Symbols are registered service marks of the Blue Cross Blue Shield Association, an association of independent Blue Cross and Blue Shield Plans. Accredo is a specialty pharmacy that is contracted to provide services to Blue Cross and Blue Shield of Kansas members and is not affiliated with Blue Cross and Blue Shield of Kansas.

National Select Formulary

Your prescription drug benefit includes a list of medications called a formulary. Doctors and pharmacists dedicated to providing patients with high-quality, cost-effective prescription drug therapy reviewed and approved this formulary. All medications were selected after considering safety, effectiveness, uniqueness and cost.

Medications on this list are formulary drugs. Drugs not listed are non-formulary (NF). **Coverage of formulary and NF drugs are subject to your plan's benefit design.** Formulary brand drugs sold by a repackager are not covered.

Always remember to ask your physician to prescribe a generic medication whenever appropriate. Generic drugs are covered at the lowest copay and are displayed in lowercase font. Formulary brand drugs are covered at the next highest co-pay tier and are listed in uppercase font. Non-formulary brand drugs are either covered at the highest copay tier or excluded from coverage. To encourage the use of generic drugs, brand formulary drugs usually become NF after a generic version becomes available.

Specialty Prescription Drugs

Certain medical conditions may require the use of a "Specialty Drug." These drugs typically meet one or more of the following characteristics:

- High cost due to treatment of complex conditions
- Self-injected, inhaled or taken orally
- Special handling or storage
- Strict compliance and patient support
- Additional education and support required from a health care professional
- Usually not stocked at retail pharmacies
- May only be available through limited distribution arrangements

Your prescription drug benefit may require you to use a designated specialty pharmacy to be eligible for benefits. The designated specialty pharmacies are Accredo and Prime Therapeutics Specialty Pharmacy.

You may find the Specialty Drug List under the [Forms](#) section of myprime.com. Medications found on the Specialty Drug List are subject to any designated specialty pharmacy requirements of your prescription drug benefits. Cost share for specialty medications is based on your plan's benefit design.

Through the designated specialty pharmacy, medications and supplies will be delivered to you or to your doctor's office.

To order specialty medications:

- Have your prescriber call or fax your prescription to Accredo at 833-721-1620 or fax to 888-302-1028.
or
- Have your prescriber call or fax your prescription to Prime Therapeutics Specialty Pharmacy at 866-554-2673 or fax to 866-364-2673.

If you have questions about your specialty pharmacy benefit, please call the phone number on the back of your ID card.

CivicaScript

Blue Cross and Blue Shield of Kansas has partnered with CivicaScript to bring our members low cost medications. Your prescription drug benefit may require you to obtain certain drugs through Prime Therapeutics Specialty Pharmacy. A list may be found on our [Specialty Drugs](#) webpage.

Prime Therapeutics Specialty Pharmacy contact information:

- Phone: 866-554-2673
- Fax: 866-364-2673

Affordable Care Act

Please note, some drugs may have limited or \$0 cost-sharing under the Affordable Care Act; examples of categories of drugs that may be subject to limited or \$0 cost share include aspirin, breast cancer prevention, fluoride supplements, folic acid supplements, HIV pre-exposure prophylaxis, iron supplements, tobacco cessation, statins, oral generic contraceptive drugs and some contraceptive devices. If you do not find the drug you are searching for, contact BCBSKS to find out if the drug is available over the counter or is covered under your medical benefit.

Excluded Drugs

A list of drugs excluded from coverage may be found at [Excluded Drugs](#) or by visiting www.bcbsks.com

Utilization Management

BCBSKS applies utilization management (UM) programs to help ensure the appropriate use and application of a patient's drug therapy. Detailed program criteria and prior authorization forms are available:

Prior authorization forms: <https://www.myprime.com/en/forms/coverage-determination/prior-authorization.html>

Medical policy: <https://www.bcbsks.com/CustomerService/Providers/MedicalPolicies/policies.shtml>

Quantity Limits

Drug quantity limits help encourage medication use as intended by the FDA. Quantity limits are placed on medications in certain drug categories. For the medications listed in this document, if a quantity limit applies, it will be noted next to the medication with a dot under the quantity limits column.

A list of medications subject to quantity limits may be found at [Quantity Limit List](#) or by visiting www.bcbsks.com

Limits may include: quantity of covered medication per prescription and/or quantity of covered medication in a given time period. If your doctor prescribes a greater quantity of medication than what the quantity limit allows, you can still get the medication. However, you will be responsible for the full cost of the prescription beyond what your coverage allows.

There may also be limits for members within a certain age range.

Prior Authorization

Your benefit plan may require prior authorization for certain drugs that are high-cost or have the potential for misuse. This means that your doctor will need to submit a prior authorization request for coverage of these medications, and the request will need to be approved before the medication will be covered under your plan. If a prior authorization is required for a medication listed in this document, it will be noted next to the medication with a dot under the prior authorization column.

A list of non-formulary drugs that require prior authorization may be found at https://www.myprime.com/content/dam/prime/memberportal/WebDocs/Other/Misc/BCBSKS/Commercial/KS_Non_Formulary_PA.pdf or by visiting www.bcbsks.com.

How To Use This List

This list is organized into broad therapeutic categories. For example, Respiratory Agents is a broad category. Within most categories, drugs are sub-grouped based upon drug class, for example under Respiratory Agents you will find Antihistamines. All drugs listed, whether generic or brand, are formulary drugs. The graphic below shows the information that is provided in each column of the medication list and is an example only. Please use the drug search function to find current information for drugs on the medication list.

1 Drug Name	2 Specialty	3 Prior Authorization	Quantity Limits
LETAIRIS – ambrisentan tab 5 mg	•		
LETAIRIS – ambrisentan tab 10 mg	•		
OPSUMIT – macitentan tab 10 mg	•		
sildenafil citrate tab 20 mg (Revatio)	•		
TRACLEER – bosentan tab 62.5 mg	•		
TRACLEER – bosentan tab 125 mg	•		
RESPIRATORY AGENTS			
ANTI-HISTAMINES

cyproheptadine hcl syrup 2 mg/5ml			
cyproheptadine hcl tab 4 mg			
promethazine hcl suppos 12.5 mg			

- 1 The first column of the chart lists the drug name. Generic drugs are shown in lower-case **boldface** type. Most generic drugs are followed by a reference brand drug in (parentheses). Some generic products have no reference brand.

Brand prescription drugs are shown in capital letters followed by the generic name.

Drug names that have an asterisk (*) after them are considered to be a part of the weight loss benefit, which is not a covered benefit for all members. Please check your specific member benefits to determine if this is a covered benefit for you.

- 2 The second column indicates if the drug is a specialty drug. **Note:** Additional information about specialty drugs can be found in this document under the header for Specialty Drugs.

- 3 The remaining columns indicate the Utilization Management (UM) program(s) that apply to the prescription drug (e.g., Prior Authorization and Quantity Limits). If an indicator is present in the column(s), then the UM program noted is possibly applied to your benefit. Some plans may have UM on additional medications beyond those noted in this document.
