Introduction

Florida Blue is pleased to present the Care Choices Medication Guide. This is a general guide that includes a comprehensive listing of medications that may be covered under your plan. Since coverage for medication varies by the plan purchased by you or your employer, it's important that you refer to your plan documents for complete coverage details. When we refer to "plan documents" we are referring to one or more of the following: Benefit Booklet, Certificate of Coverage, Contract, Member Handbook or prescription drug endorsement.

The Care Choices Medication Guide provides helpful tips on how to make the most of your pharmacy benefits and details about the various coverage programs that are designed to provide safe and appropriate medication when you need it. Changes in the formulary can occur over time and the most up-to-date listing can always be found by viewing the Medication Guide online at www.floridablue.com or by calling the customer service number listed on your member ID card. For the hearing impaired, call Florida TTY Relay service 711.

If you are a current member, we encourage you to log on to your member account for plan specific details about your medication coverage. Go to www.floridablue.com, click on the Members tab. Once registered, you can look up a medication by name and compare your cost at different pharmacies. You'll see notes that indicate if a medication requires a prior authorization or is not covered by your plan.

NOTE: The decision concerning whether a prescription medication should be prescribed must be made by you and your physician. Any and all decisions that require or pertain to independent professional medical judgment or training, or the need for, and dosage of, a prescription medication, must be made solely by you and your treating physician in accordance with the patient/physician relationship.

Key Tips and Coverage Guidelines

By following these simple guidelines, you will be assured that you are getting the maximum benefit from your plan.

- When you have your prescriptions filled, ask your pharmacist if a generic equivalent is available. Generic medications are usually less expensive, and most generics are covered unless specifically excluded under your plan documents.
- Brand name medications are covered on your plan only if they are included in the medication list. Brand name medications not listed in the medication list are not covered.
- Consider asking your physician to prescribe generic medications, or if necessary, one of the preferred brand name medications whenever appropriate. Your cost for generic and preferred brand name medications is lower than non-preferred brand name medications.
- If you are currently taking a medication, take a moment to review the medication list to determine if it is covered. If not, check with your doctor to understand available options.
- If you or your provider request a covered brand name medication when there is a generic available; you will be responsible for: (1) the difference in cost between the generic medication and the brand name medication you received; and (2) the cost share applicable to the brand name medication you received, as indicated on your Schedule of Benefits

Medication List

The Medication Guide includes the Preferred Medication List and some commonly prescribed Non-Preferred prescription medications. The Preferred Medication List reflects the current recommendations of Florida Blue and is developed in conjunction with Prime Therapeutics' National Pharmacy & Therapeutics Committee.

NOTE: This is not a complete listing of all covered prescription medications. Florida Blue reserves the right to modify (add, remove or change) the tier or apply limits of coverage to any prescription medication in this Medication Guide at any time.

For your out-of-pocket expenses to be as low as possible, please consider asking your doctor to prescribe generic medications, or if necessary, brand name medications that are included on the List. This will help ensure that your covered medications are allowed and reimbursed under your plan. In addition, consider using a participating pharmacy to obtain your covered medications because your out-of-pocket expenses should be lower than if you used a non-participating pharmacy.

To save the most money on medications, share this Medication Guide with your doctor or health care provider at each visit so he or she is aware of the drugs listed and cost impacts when you discuss medication options.

Changes to the formulary

This guide includes the medication list which reflects the current recommendations of Florida Blue and is developed in conjunction with Prime Therapeutics' National Pharmacy & Therapeutics Committee. Florida Blue reserves the right to add or remove or change the tier of any medication in this Medication Guide at any time.

The medication list is reviewed quarterly to examine new medications and new information about medications that are already on the market concerning safety, effectiveness and current use in therapy.

There are varying reasons changes are made to the medications listed in the Care Choices Medication Guide:

- The tier level of a brand name medication included on the medication list may increase (change to a higher tier) when an FDA-approved bioequivalent generic medication becomes available.
- Newly marketed prescription medications may not be covered until the Pharmacy & Therapeutics Committee has had an opportunity to review the medication, to determine whether the medication will be covered and if so, which tier will apply based on safety, efficacy and the availability of other products within that class of medications. Go to [New To Market Drug List](#) for the most up-to-date information.

The most up-to-date information about modifications to the medications listed in this medication guide can be found by: Going to www.floridablue.com.

- Click on the **Members** tab
- Click on the **Login Now** button and either **Login** or **Register**
- Once Logged in, click on **My Plan**, then select **Pharmacy Resources** under Coverage
- Under Pharmacy Resources, click on Medication Guide & Specialty Pharmacy
- Under Medication Guide/Approved Drug Lists, click [Care Choices Medication Guide](#)
- Updated medication guides are posted periodically throughout the year.

Formulary addition request

Physicians may request the addition of a medication to the formulary list by submitting a written request to Florida Blue.

Your Share of Expenses

Your cost share will depend on which cost share tier the medication is assigned. You can determine your out-of-pocket amount for medication by reviewing your Schedule of Benefits. If your plan includes a Deductible, you may have to satisfy that amount before the costs of your medications are covered.

If you or your provider requests a covered brand name medication when there is a generic medication available; you will be responsible for:

- the difference in cost between the generic medication and the brand name medication; and
- the cost share applicable to brand name medication, as indicated on your Schedule of Benefits.

Example: If your drug copay is \$10 for generic and \$40 for brand, and you choose a brand name drug when a generic is available, here is what you might pay.

Difference in Drug Cost is \$70 (Brand Drug Cost \$120-Generic Drug Cost \$50) + Brand Co-Pay \$40 = **\$110 is Your Total Cost**

If your prescriber requires the use of a brand name medication for medical reasons, supporting documentation must be provided to avoid being responsible for the cost difference between the brand and generic drug. To request an exception to the cost difference, the prescriber will need to submit a request here.

[DAW penalty waiver request form.](#)

Your cost share for HIV/AIDS drugs follows the OIR Safe Harbor Guidelines. To determine the cost share for your HIV/AIDS drug check here: [2026 Safe Harbor Guidelines for HIV/AIDS Drugs](#)

NOTE: If you have a deductible, you must meet your deductible prior to the cost shares listed to apply

Pharmacy Benefits

The pharmacy benefit has three parts/components, called Tiers. This means that covered medications must be included in one of the following Tiers, unless specifically excluded by your plan:

Tier 1: Preventive Prescription Drugs and Supplies (USPSTF)

Tier 2: Condition Care Generic Prescription Drugs and Supplies

Tier 3: All Other Generic Prescription Drugs and Supplies

Tier 4: Condition Care Brand Name Prescription Drugs and Supplies

Tier 5: Preferred Brand Name Prescription Drugs and Supplies

Tier 6: Non-Preferred Brand Name Prescription Drugs and Supplies

Tier 7: Specialty Generic and Brand Name Prescription Drugs and Supplies; some Specialty Prescription Drugs may be listed in lower tier

Medications that are not covered

Your pharmacy benefit may not cover select medications. Some of the reasons a medication may not be covered are:

- The medication has been shown to have excessive adverse effects and/or safer alternatives
- The medication has a preferred formulary alternative or over-the-counter (OTC) alternative
- The medication is no longer marketed
- The medication has a widely available/distributed AB rated generic equivalent formulation
- The medication has been repackaged — a pharmaceutical product that is removed from the original manufacturer container (Brand Originator) and repackaged by another manufacturer with a different NDC
- The medication is not covered because of safety or effectiveness concerns.
- The medication is not covered for weight loss indication.

In addition to any drug not listed in the medication guide, a list of certain medications that are not covered may be found at [Medications Not Covered List](#).

NOTE: To determine the medication exclusions that apply to your plan, check your plan documents. Coverage details are also available to you by logging into the member section of www.floridablue.com.

Condition Care Rx Program

The Condition Care Rx Program is designed to help manage the cost of medications used to treat certain chronic conditions and encourage medication adherence. You can purchase medications at a reduced cost using the Condition Care Rx Program. Check your Schedule of Benefits to determine the applicable cost share.

A list of medications that are part of the Condition Care Rx Value Program may be found at: [Condition Care Rx Program Value List](#).

NOTE: Coverage details may also be available to you by logging into the member section of www.floridablue.com.

Generic drugs

Florida Blue encourages the use of generic medications as a way to provide high-quality medications at reduced costs. Generic medications are as safe and effective as their brand name counterparts and are usually considerably less expensive.

A Food and Drug Administration (FDA) approved generic medication may be substituted for its brand name counterpart because it:

- Contains the same active ingredient(s) as the Brand medication
- Is identical in strength, dosage form, and route of administration
- Is therapeutically equivalent and can be expected to have the same clinical effect and safety profile

Check with your doctor or health care provider to determine if switching to a generic medication is appropriate for you.

Oral Chemotherapy Drugs

Oral chemotherapy drugs are drugs prescribed by a physician to kill or slow the growth of cancerous cells in a manner consistent with the national accepted standards of practice. A list of these drugs can be found at: [Oral Chemotherapy Drug List](#)

Over-the-counter (OTC) medications

An over-the-counter medication can be an appropriate treatment for some conditions and may offer a lower cost alternative to some commonly prescribed medications. Your pharmacy benefit may provide coverage for select OTC medications. Some groups may customize their pharmacy plan to exclude coverage for OTC medications, so it is important to check your plan documents to determine if OTC medications are covered under your plan. Only those OTC medications prescribed by your physician and designated on the formulary with “OTC” in parenthesis following the medication name are eligible for coverage.

NOTE: Check your plan documents to determine if this benefit applies to your plan. Coverage details are also available to you logging into the member section of www.floridablue.com.

Patient Protection and Affordable Care Act (ACA) Preventive Services

- **Preventive Medications** – Certain preventive care services, medications, and immunizations are covered at no cost share when purchased at a participating pharmacy. A list of medications covered under this benefit may be found at: [Preventive Medications List](#)
- **Immunizations** – Certain vaccines which are covered under your preventive benefits can be administered by pharmacists that are certified. Not all pharmacies provide services for vaccine administration. It is important to contact the pharmacy prior to your visit to ensure availability and administration of the vaccine. Otherwise contact your doctor for availability and administration of the vaccine. A list of vaccines that are covered under your pharmacy benefits may be found at: [Pharmacy Benefit Vaccines List](#).
- **Women’s Preventive Services** – Certain contraceptive medications or devices (e.g., oral contraceptives, emergency contraceptive, and diaphragms) are covered at no cost share when purchased at a participating pharmacy. A list of medications and devices covered under this benefit may be found at: [Women’s Preventive Services List](#)

Tier Exception Requests for Contraceptives & HIV Pre-Exposure Prophylaxis (PrEP)

If, for medical reasons, you need a contraceptive or HIV PrEP medication that is not included on these Preventive Service list(s), you may request an exception to waive the otherwise applicable cost sharing for your medication. To request an exception, your doctor must complete and submit request online at covermymeds.com or by fax using the Exception Request Forms in links below.

Specialty Pharmacy medications: Covered Specialty Medications as indicated in the Medication List. Your plan may include a separate cost share for Specialty Medications. Since coverage for medication varies by the plan purchases by you or your employer, it’s important that you refer to your plan documents for complete coverage details.

Specialty Pharmacy medications are high-cost injectable, infused, oral or inhaled medications that generally require close supervision and monitoring of the patient's therapy.

Specialty Drugs are only covered when they're dispensed from a Specialty Pharmacy, up to a one-month supply. Certain Specialty Pharmacy products may vary from the one-month supply. These Specialty Drugs may be dispensed in lesser or greater quantities due to manufacturer package size or FDA-approved dosage requirements for a course of therapy. A list of medications covered under this benefit may be found at: [Specialty Drugs with Extended Day Supply](#).

NOTE: Check your plan documents for information on how Specialty Pharmacy medications are covered on your plan. Coverage details are also available by calling the customer service number listed on your member ID card.

Specialty Medications are divided into two categories:

- **Self-Administered Specialty Medications** – Patients administer these Specialty Pharmacy medications themselves. Because these medications are intended to be self-administered, these medications may not be covered if administered in a physician's office. If these medications are not obtained from a participating specialty pharmacy, out-of-network coverage is not available. [A current listing of Self-Administered Specialty Medications can be found here.](#)
 - Self-administered injectable medications are designated in the Medication List with “inj” following the medication name (e.g., enoxaparin inj). No other Self-administered injectables will be covered unless such injectable is identified as a Specialty Drug in this Medication Guide. Self-administered injectables will be subject to the Brand or Generic cost share, as described in your Schedule of Benefits. Florida Blue reserves the right to change the Self-administered injectables covered through your plan at any time and for any reason.
- **Provider-Administered Specialty Medications** – These medications require the administration to be performed by a physician. The Specialty Pharmacy medications are ordered by a provider and administered in an office or outpatient setting. Provider-administered Specialty Pharmacy medications are covered under your medical benefit. These medications can be obtained from in-network health care provider. [A current listing of Provider-Administered Specialty Medications can be found here.](#)

NOTE: We have noted medications that may be covered as either Self -Administered and/or Provider-Administered. Specialty Pharmacy products can be obtained as a pharmacy or medication benefit.

Please check your handbook for details.

Medical Pharmacy Tier Program

The Medical pharmacy tier program provides cost share reductions and helps you save on provider-administered medications which are rendered in a physician's office or outpatient setting. Provider-administered medications are covered under your medical benefit. Medications in the Medical Pharmacy Tier Program may also be subject to Prior Authorization requirements. Florida Blue reserves the right to change the medications included in the Medical Pharmacy Tier Program at any time and for any reason.

- **Low tier:** Lower cost provider-administered medications (e.g., preferred generic, biosimilar or other medications, supplies, or devices)
- **Standard tier:** All other provider-administered medications

A list of medications included in **Low tier** of the Medical Pharmacy Tier Program may be found here: [Medical Pharmacy Low Tier Drug List](#)

NOTE: Check your plan documents to determine if the Medical Pharmacy Tier Program applies to your plan. Coverage details are also available to you by logging into the member section of www.floridablue.com or by calling the customer service number listed on your ID card.

Pharmacy Options

There are two different types of pharmacies for you to be aware of as you decide where to get your prescriptions filled: retail pharmacies and specialty pharmacies. To save the most money, before you get a prescription filled, you should confirm which pharmacy is considered 'in-network' for that particular medication.

Participating Pharmacy

- **Retail Pharmacy Network** – Non-Specialty 'Generic' medications and 'Brand Name' medications listed in the Medication Guide can be filled at these pharmacies at a lower cost to you than other pharmacies in your area. If you go to a non-participating pharmacy, your prescription will cost you more.
 - **For members associated with a Small Group BlueCare HMO plan** Your plan may have a Preferred Pharmacy Network within the Retail Pharmacy Network. The Preferred Pharmacy Network is a list of pharmacies that apply your standard cost-share or co-pay. If you choose to fill a prescription outside this Preferred Pharmacy network, you may have higher cost-share or co-pay amounts. To find a pharmacy in the Preferred Pharmacy Network, please log in to Florida Blue account, scroll to Know Before You Go section and click Find, Doctors, Pharmacies, and More.
- **Specialty Pharmacy Network** – We have identified certain drugs as specialty drugs due to requirements such as special handling, storage, training, distribution, and management of the therapy. These drugs are listed as a 'Specialty Drug' in this Medication Guide. To be covered under your pharmacy program at the in-network cost share, they must be purchased at a preferred Specialty Pharmacy. These pharmacies are **different** than the retail pharmacies and are identified in both the Provider Directory and this Medication Guide. Using an in-network Specialty Pharmacy to provide these Specialty Drugs lowers the amount you pay for these medications.
 - Limited Distribution (LD) Pharmacy – Drug manufacturers will choose one or a limited number of specialty pharmacies to handle and dispense certain specialty drugs. Typically, these drugs are costly and require special monitoring and prior authorization (pre-approval). The pharmacy that dispenses your limited distribution drug can be found here: [Limited Distribution Drugs](#)

Non-Participating Pharmacy

- If your plan offers out-of-network pharmacy coverage, choosing a non-participating pharmacy will cost you more money. You may have to pay the full cost of the medication and then file a claim for benefit determination. Our payment will be based on our Non-Participating Pharmacy Allowance minus your cost share. You will be responsible for your cost share and the difference between our Allowance and the cost of the medication.
 - If your plan doesn't offer out-of-network pharmacy coverage, choosing a non-participating pharmacy may risk your ability to be reimbursed. You may have to pay the full cost of the medication.

Advocate+™ Pharmacy Match Specialty Pharmacy Network

Specialty pharmacies help you get and manage your [self-administered specialty medication](#). These pharmacies will deliver your medication right to your home within all U.S. states and territories, and pharmacists are available 24 hours a day to answer your questions.

Advocate+ Pharmacy Match expands your plan's specialty pharmacy network and matches you with a highly qualified pharmacy to fill your specialty medication. **Important:** Any other pharmacy is considered out-of-network for specialty medications even if it is in-network for other non-specialty medications. Be sure to only use the specialty pharmacies in the **Advocate+™ Pharmacy Match Specialty Pharmacy Network** so your medication will be covered.

Getting Help:

- **Getting help for yourself** with your self-administered specialty medications: You can call Advocate+ Member Support at 1-833-950-3858.
- **Getting help for your provider:** Your provider should be aware of where to send your self-administered specialty prescription, which is indicated on your medication guide drug list with “SP.” If they need guidance, they can call for support. Please give this contact information to provider’s office staff:

Advocate+ Prescriber

Phone: 1-877-787-0520 (option 2 for pharmacies; option 3 for prescriber)

Fax: 1-833-998-4435

NCPDP: 6013914

NPI: 1366292880

Special Circumstances

For the three medication types listed below, please use only the pharmacies listed here.

1. Specialty Self-Administered hemophilia medications will be listed on the drug list with “SP.” Please use:

CVS/Caremark Hemophilia Services

Phone: 1-866-792-2731

Fax: 1-866-811-7450

CVS Caremark Specialty Hemophilia

2. Specialty Provider-Administered Medications. Please use:

CVS/Caremark Specialty Pharmacy Services

Phone: 1-866- 278-5108

Fax: 1-800-323-2445

CVS Caremark

Specialty Provider-Administered medications administered by a health care professional may be ordered by your provider directly or they may send the prescription to CVS/Caremark Specialty or through a limited distribution pharmacy to bill your medical benefits. Since they’re covered under your medical benefit, these medications are not listed on the drug list within your medication guide.

3. Specialty Provider-Administered long-acting mental health medications listed on the limited distribution drug list under your pharmacy benefit will be listed on the drug list with “SP”. Please use:

Genoa Healthcare

Genoa Healthcare

NOTE: Specialty pharmacy medications are not covered when purchased through the Amazon home delivery pharmacy.

Home Delivery Pharmacy

Most plans home delivery pharmacy is serviced by [Amazon Pharmacy](#). To confirm your home delivery pharmacy provider, log into [floridablue.com](#) and view the home delivery section in your member account for additional details.

NOTE: If the original prescription was filled at a pharmacy other than the home delivery pharmacy, a new, original three-month supply prescription with a quantity of up to a three-month supply and not less than a two-month supply will be required. Prescriptions may not be transferred from a retail pharmacy to the home delivery pharmacy.

Three-month supply at Retail Pharmacy

In addition to being able to obtain up to a three-month supply of medication through our home delivery pharmacy, you may be able to receive up to a three-month supply of your medication through a participating retail pharmacy. Please refer to your Benefit Booklet, Certificate of Coverage, Contract, Member Handbook or prescription drug endorsement for complete coverage details.

Utilization Management Programs

Prior Authorization Program

The Prior Authorization Program encourages the appropriate, safe and cost-effective use of medications. If you are currently taking or are prescribed a medication that is included in the Prior Authorization Program, your physician will need to submit a request form in order for your prescription to be considered for coverage. If you do not request and/or receive prior approval, the medication will not be covered. Medications that require prior authorization for coverage are indicated in the prior authorization column following the product name in the medication list.

NOTE: Some groups may customize their pharmacy plan to exclude prior authorization requirements, so it is important to check your plan documents to determine if prior authorization requirements apply to your plan. Coverage details are also available to you by logging into the member section of www.floridablue.com.

NOTE: Prior Authorizations expire on the earlier of, but not to exceed 12 months for most medications:

1. The termination date of your policy or
2. The period authorized by us, as indicated in the letter you receive from us.

Obtaining Prior Authorization

Information about prior authorization and forms for how to obtain a prior authorization approval can be found here: [Prior Authorization Program Information and Forms](#).

NOTE: Your provider is required to complete and submit the Prior Authorization form in order for a coverage determination to be made.

1. Once a decision is made, you and/or your doctor will be informed of the decision.
2. If the decision is made to authorize coverage, the medication(s) and/or supplies may be obtained from a participating pharmacy or at the appropriate location if the medication(s) will be administered by a health professional. Prior authorization approval does not waive your cost share.
3. If a decision is made to deny authorization, you are free to purchase the prescription medication, supplies or Over-the-Counter (OTC) medication, but you will have to pay the full cost of the medication and will not be entitled to reimbursement under your plan.

NOTE: You have the right to request an appeal if prior authorization is denied. Please refer to the 'How to Appeal an Adverse Benefit Determination' subsection of the Complaint and Grievance Process section in your current Benefit Booklet or Contract for information on how to file an appeal.

Responsible Quantity Program

The Responsible Quantity Program encourages the appropriate, safe and cost-effective use of medication by setting a maximum quantity per month for a medication or supply. The quantity limitations are based on the Food and Drug Administration guidelines and the manufacturer's dosing recommendations.

Medications that are subject to this program are indicated in the quantity limits column following the product name in the medication list. Florida Blue reserves the right to change the drugs and the quantity limits subject to the Responsible Quantity Program at any time and for any reason. In cases where a larger quantity of a Responsible Quantity Drug is medically required, your doctor or health care provider can request an override.

Information about the Responsible Quantity Program and steps for how to obtain an exception can be found here:

[Responsible Quantity Program Information](#)

[Responsible Quantity Authorization Form](#)

Responsible Steps Program

The Responsible Steps Program promotes the appropriate, safe, and effective use of medications and helps you save on prescriptions. Responsible Steps is based on nationally recognized therapeutic guidelines, clinical evidence, and research. Prescription medications included in the Responsible Steps Program are not covered unless you have tried one or more covered alternative medications first.

A list of current drugs included in the Responsible Steps Program maybe found here:

[Responsible Steps Program Information and Authorization Forms](#)

Responsible Steps Program for Medical Pharmacy

Certain physician-administered Prescription Drugs which are rendered in a physician's office may be included in the Responsible Steps for Medical Pharmacy Program. If you are taking a medication in the Responsible Steps Program, please contact your physician/provider to discuss what medication options are best for you.

If, due to medical reasons, you cannot use the prerequisite drug and require the Responsible Steps Medication, your doctor or health care provider may request prior authorization for an override. If the override request is approved, coverage will be provided for the Responsible Steps Medication. Florida Blue reserves the right to change the drugs subject to the Responsible Steps Program at any time and for any reason.

Information about the Responsible Steps Program for Medical Pharmacy and steps for how to obtain a form can be found at:

[Responsible Steps for Medical Pharmacy](#)

NOTE: Check your plan documents to determine if Responsible Steps requirements apply to your plan. Coverage details are also available to you by logging into the member section of www.floridablue.com or by calling the customer service number listed on your ID card.

Coverage Protocol Exemption

Your doctor may want to prescribe a medication for a condition that is different from the step-therapy protocol developed by Florida Blue. If this is the case, either you or your doctor can request an exemption by submitting a [Coverage Protocol Exemption Request](#).

Coverage Exception Process

Pursuant to 45 C.F.R. 156.122, if a medication is not covered on our formulary, you may request an exception. We have established processes for both standard exception requests and expedited exception requests, as described below.

Standard Exception Requests

To request a standard exception, you, your designee or the prescribing physician (or other prescriber), as appropriate may submit an exception request by completing and submitting the Coverage Exception Request Form at the link below.

We will notify you or your designee and the prescribing physician (or other prescriber, as appropriate) of our decision within 72 hours of our receipt of the request. If we approve the exception, we will provide coverage of the excepted medication for the duration of the prescription, including refills.

Expedited Exception Requests

You may request an expedited exception based on exigent circumstances. Exigent circumstances exist when:

1. you are suffering from a medical condition that may seriously jeopardize your life, health or ability to regain maximum function; or
2. you are undergoing a current course of treatment using a medication that is not covered on our formulary.

To request an expedited exception, you, your designee or the prescribing physician (or other prescriber) may submit an exception request by completing and submitting the Coverage Exception Request Form at the link below.

We will notify you or your designee and the prescribing physician (or other prescriber, as appropriate) of our decision within 24 hours of our receipt of the request. If we approve the exception, we will provide coverage of the excepted medication for the duration of the exigency.

[Coverage Exception Request Form](#)

What if my exception request is denied?

If we deny your standard or expedited request for exception, you, your designee, or the prescribing physician (or other prescriber) may request a review of the original request and our denial by an external independent review organization.

1. If the original exception request was a standard request, we will notify you or your designee and the prescribing physician (or other prescriber, as appropriate) of our decision within 72 hours of our receipt of the request. If we approve the exception, we will provide coverage of the excepted medication for the duration of the prescription.
2. If the original exception request was an expedited request, we will notify you or your designee and the prescribing physician (or other prescriber, as appropriate) of our decision within 24 hours of our receipt of the request. If we approve the exception, we will provide coverage of the excepted medication for the duration of the exigency.

Notice

This Medication Guide shall not extend, vary, alter, replace, or waive any of the provisions, benefits, exclusions, limitations, or conditions contained in the Benefit Booklet, Contract, or prescription drug endorsement. In the event of any inconsistencies between the Medication Guide and the provisions contained in the Benefit Booklet, Contract or prescription drug endorsement, the provisions contained in the Benefit Booklet, Contract or prescription drug endorsement shall control to the extent necessary to effectuate the intent of Florida Blue and Florida Blue HMO.

How to use this Drug list

Column 1: Drug Name

The drug list is organized into broad categories (e.g., HORMONES, DIABETES AND RELATED DRUGS). Please use the drug search function (Ctrl+F) to find current information for drugs on the drug list. Generic drugs are shown in lower-case **boldface** type. Most generic drugs are followed by a reference brand drug in (parentheses). Some generic products have no reference brand. Brand prescription drugs are shown in CAPITAL letters followed by the generic name. The Requirements/Limits column displays information about whether that drug requires prior authorization, responsible step, limited distribution, or quantity limits. Below are the meanings of the indicators used in the Drug Tier and Requirements/Limits columns.

Column 2: Drug Tier

Indicates the formulary tier level for each drug.

Column 3: Specialty (SP)

Indicates this is a self-administered specialty drug.

Note: Additional information about specialty drugs can be found in this document under Specialty Pharmacy medications, Self-Administered.

Column 4: Requirements/Limits

- Prior Authorization (PA) - Some drugs require prior authorization to ensure appropriate use and prescribing before a drug will be covered. Coverage may be approved after certain criteria are met. Approval is required for claims to process at network pharmacies. If the PA indicator is present, then the PA program noted is possibly applied to your benefit.
- Responsible Steps (ST) - Requires members to try another drug that may be more safe, clinically effective and, in some cases, less expensive, before a more expensive drug will be approved. If the ST indicator is present, then the ST program noted is possibly applied to your benefit.
- Limited Distribution (LD) - Drug manufacturers will choose one or limited number of specialty pharmacies to dispense drugs. Additional information about limited distribution drugs can be found in this document under Participating Pharmacy.
- Quantity Limits (QL) - Certain drugs have quantity limits to encourage safe and appropriate use. The quantity limit is the maximum quantity that can be dispensed over a given period of time. If the QL indicator is present, then the QL program noted is possibly applied to your benefit.

Some plans may have Utilization Management (UM) programs (e.g., PA, QL, and ST) on additional drugs beyond those noted in this document.
