

SecureBlueSM (HMO SNP)

2017 List of Covered Drugs (Formulary)

This is a list of drugs that members can get in SecureBlue.

- ❖ SecureBlue (HMO SNP) is a health plan that contracts with both Medicare and the Minnesota Medical Assistance (Medicaid) program to provide benefits of both programs to enrollees. Enrollment in SecureBlue (HMO SNP) depends on contract renewal.
- ❖ The List of Covered Drugs and/or pharmacy and provider networks may change throughout the year. We will send you a notice before we make a change that affects you.
- ❖ Benefits copays may change on January 1 of each year.
- ❖ You can always check SecureBlue's up-to-date List of Covered Drugs online at bluecrossmn.com/secureblue.
- ❖ Limitations, copays and restrictions may apply. For more information, call SecureBlue Member Services at the number listed at the bottom of this page or read the SecureBlue Member Handbook.
- ❖ Copays for prescription drugs may vary based on the level of Extra Help you get. Please contact the plan for more details.
- ❖ This information is available for free in other languages. Call Member Services at the number listed at the bottom of this page.
- ❖ You can get this information for free in other formats, such as large print, braille, or audio. Call Member Services at the number listed at the bottom of this page.
- ❖ You can make a standing request to get information in other languages and alternate format. Call Member Services at the number at the bottom of this page.

Frequently Asked Questions (FAQ)

Find answers to questions you have about this List of Covered Drugs. You can read all of the FAQ to learn more, or look for a question and answer.

1. What prescription drugs are on the List of Covered Drugs? (We call the List of Covered Drugs the “Drug List” for short.)

The drugs on the Drug List that starts on page 1 are the drugs covered by SecureBlue. These drugs are available at pharmacies within our network. A pharmacy is in our network if we have an agreement with them to work with us and provide you services. We refer to these pharmacies as “network pharmacies.”

→ SecureBlue will cover all medically necessary drugs on the Drug List if:

- your doctor or other prescriber says you need them to get better or stay healthy, **and**
- you fill the prescription at a SecureBlue network pharmacy.
- SecureBlue may have additional steps to access certain drugs (see question 5 below).

You can also see an up-to-date list of drugs that we cover on our website at bluecrossmn.com/secureblue or call Member Services at the number listed at the bottom of this page.

2. Does the Drug List ever change?

Yes. SecureBlue may add or remove drugs on the Drug List during the year. Generally, the Drug List will only change if:

- a cheaper drug comes along that works as well as a drug on the Drug List now, **or**
- we learn that a drug is not safe.

We may also change our rules about drugs. For example, we could:

- Decide to require or not require prior authorization for a drug. (*Prior authorization* is permission from SecureBlue before you can get a drug.)
- Add or change the amount of a drug you can get (called *quantity limits*).
- Add or change step therapy restrictions on a drug. (*Step therapy* means you must try one drug before we will cover another drug.)

(For more information on these drug rules, see page III.)

If you have questions, please call SecureBlue Member Services at 651-662-6013 or toll free at 1-888-740-6013, TTY/TDD 711, seven days a week, 8 a.m. to 8 p.m. The call is free. **For more information**, visit bluecrossmn.com/secureblue.

→ We will tell you when a drug you are taking is removed from the Drug List. We will also tell you when we change our rules for covering a drug. Questions 3, 4, and 7 below have more information on what happens when the Drug List changes. You can always check SecureBlue's current Drug List online at bluecrossmn.com/secureblue. You can also call Member Services at the number listed at the bottom of this page to check the current Drug List.

3. What happens when a cheaper drug comes along that works as well as a drug on the Drug List now?

If you are taking a drug that is removed from the Drug List because a cheaper drug that works just as well comes along, we will tell you. We will tell you at least 60 days before we remove it from the Drug List *or* when you ask for a refill. Then you can get a 60-day supply of the drug before the change to the Drug List is made. You will be notified by letter.

4. What happens when we find out a drug is not safe?

If the Food and Drug Administration (FDA) says a drug you are taking is not safe, we will take it off the Drug List right away. We will also send you a letter telling you that. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover.

5. Are there any restrictions or limits on drug coverage? Or are there any actions required to get certain drugs?

Yes, some drugs have coverage rules or have limits on the amount you can get. In some cases you, your doctor, or other prescriber must do something before you can get the drug. For example

- **Prior authorization:** For some drugs, you, your doctor, or other prescriber provider must get authorization from SecureBlue before you fill your prescription. If you don't get authorization, SecureBlue may not cover the drug.
- **Quantity limits:** Sometimes SecureBlue limits the amount of a drug you can get.
- **Step therapy:** Sometimes SecureBlue requires you to do step therapy. This means you will have to try drugs in a certain order for your medical condition. You might have to try one drug before we will cover another drug. If your doctor or other prescriber thinks the first drug doesn't work for you, then we will cover the second.

You can find out if your drug has any additional requirements or limits by looking in the tables on pages 1 - 116. You can also get more information by visiting our website at bluecrossmn.com/secureblue. We have posted online documents that explain our prior authorization restrictions and step therapy restrictions. You may also ask us to send you a copy.

If you have questions, please call SecureBlue Member Services at 651-662-6013 or toll free at 1-888-740-6013, TTY/TDD 711, seven days a week, 8 a.m. to 8 p.m. The call is free. **For more information**, visit bluecrossmn.com/secureblue.

You can ask for an “exception” to these limits. Please see questions 9 - 13 for more information on exceptions.

→ If you are in a nursing home or other long-term care facility and need a drug that is not on the Drug List, or if you cannot easily get the drug you need, we can help. We will cover a 31-day emergency supply of the drug you need (unless you have a prescription for fewer days), whether or not you are a new SecureBlue member. This will give you time to talk to your doctor or other prescriber. He or she can help you decide if there is a similar drug on the Drug List you can take instead or whether to ask for an exception. Please see questions 9 - 13 for more information about exceptions.

6. How will you know if the drug you want has limitations or if there are any actions required to get the drug?

The Drug List on page 1 has a column labeled “Necessary actions, restrictions, or limits on use.”

7. What happens if we change our rules on how we cover some drugs? For example, if we add prior authorization, quantity limits, and/or step therapy restrictions on a drug.

We will tell you if we add prior authorization, quantity limits, and/or step therapy restrictions on a drug. We will tell you at least 60 days before the restriction is added or when you next ask for a refill. Then, you can get a 60-day supply of the drug before the change to the Drug List is made. This gives you time to talk to your doctor or other provider about what to do next.

8. How can you find a drug on the Drug List?

There are two ways to find a drug:

- You can search alphabetically (if you know how to spell the drug), **or**
- You can search by drug type.

To search **alphabetically**, go to the *Index*. You can find it on page 117. The *Index* is an alphabetical list of all of the drugs included in the Drug List. Both brand name drugs and generic drugs are listed in the *Index*. Look in the *Index* and find your drug.

To search **by drug type**, find the section labeled “List of drugs by drug type” on page 1. The drugs in this section are grouped into categories by type. For example, if you are taking a medicine for migraines, you should look in the “Antimigraine Agents” category. That is where you will find drugs that treat migraines.

If you have questions, please call SecureBlue Member Services at 651-662-6013 or toll free at 1-888-740-6013, TTY/TDD 711, seven days a week, 8 a.m. to 8 p.m. The call is free. **For more information**, visit bluecrossmn.com/secureblue.

9. What if the drug you want to take is not on the Drug List?

If you don't see your drug on the Drug List, call Member Services at the number listed at the bottom of this page and ask about it. If you learn that SecureBlue will not cover the drug, you can do one of these things:

- Ask Member Services for a list of drugs like the one you want to take. Then show the list to your doctor or other prescriber. He or she can prescribe a drug on the Drug List that is like the one you want to take. **Or**
- You can ask the health plan to make an exception to cover your drug. Please see questions 10-13 for more information about exceptions.

10. What if you are a new SecureBlue member and can't find your drug on the Drug List or have a problem getting your drug?

We can help. We may cover a temporary 30-day supply of your drug during the first 90 days you are a member of SecureBlue. This will give you time to talk to your doctor or other prescriber. He or she can help you decide if there is a similar drug on the Drug List you can take instead or whether to ask for an exception.

We will cover a 30-day supply of your drug if:

- you are taking a drug that is not on our Drug List, **or**
- health plan rules do not let you get the amount ordered by your prescriber, **or**
- the drug requires prior authorization by SecureBlue, **or**
- you are taking a drug that is part of a step therapy restriction.

If you live in a nursing home or other long-term care facility, you may refill your prescription for as long as 91 and may be up to 98 days. You may refill the drug multiple times during your first 90 days. This gives your prescriber time to change your drugs to ones on the Drug List or ask for an exception.

Circumstances exist in which unplanned transitions for current members could arise and in which prescribed drug regimens may not be on the formulary. These circumstances usually involve level of care changes in which a member is changing from one treatment setting to another. For these unplanned transitions, you must use our exceptions and appeals process. Coverage determinations and redeterminations will be processed as expeditiously as your health condition requires.

In order to prevent a temporary gap in care when a member is discharged to home, members are permitted to have a full outpatient supply available to continue therapy once their limited supply provided at discharge is exhausted. This outpatient supply is available in advance of discharge from a Part A stay.

If you have questions, please call SecureBlue Member Services at 651-662-6013 or toll free at 1-888-740-6013, TTY/TDD 711, seven days a week, 8 a.m. to 8 p.m. The call is free. **For more information**, visit bluecrossmn.com/secureblue.

If you are admitted to or discharged from a LTC facility, you will not have access to the remainder of the previously dispensed prescription. We will ensure you have a refill upon admission or discharge. If you are admitted or discharged from an LTC facility, a one-time override of the “refill too soon” is provided for each impacted medication. Early refill edits are not used to limit appropriate and necessary access to your Part D benefit, and if this is the case you will be allowed to access a refill upon admission or discharge.

To ask for a temporary supply, call Member Services at the bottom of this page.

During the time when you are getting a temporary supply of a drug, you should talk with your provider to decide what to do when your temporary supply runs out. You can either switch to a different drug covered by the plan or ask the plan to make an exception for you and cover your current drug. The sections below tell you more about these options.

11. Can you ask for an exception to cover your drug?

Yes. You can ask SecureBlue to make an exception to cover a drug that is not on the Drug List.

You can also ask us to change the rules on your drug.

- For example, SecureBlue may limit the amount of a drug we will cover. If your drug has a limit, you can ask us to change the limit and cover more.
- Other examples: You can ask us to drop step therapy restrictions or prior authorization requirements.

12. How long does it take to get an exception?

First, we must get a statement from your prescriber supporting your request for an exception. After we get the statement, we will give you a decision on your exception request within 72 hours.

If you or your prescriber think your health may be harmed if you have to wait 72 hours for a decision, you can ask for an expedited exception. This is a faster decision. If your prescriber supports your request, we will give you a decision within 24 hours of getting your prescriber’s supporting statement.

13. How can you ask for an exception?

To ask for an exception, call your care coordinator. Your care coordinator will work with you and your provider to help you ask for an exception.

If you have questions, please call SecureBlue Member Services at 651-662-6013 or toll free at 1-888-740-6013, TTY/TDD 711, seven days a week, 8 a.m. to 8 p.m. The call is free. **For more information**, visit bluecrossmn.com/secureblue.

14. What are generic drugs?

Generic drugs are made up of the same active ingredients as brand name drugs. They usually cost less than the brand name drug and usually don't have well-known names. Generic drugs are approved by the Food and Drug Administration (FDA).

SecureBlue covers both brand name drugs and generic drugs.

15. What are OTC drugs?

OTC stands for "over-the-counter." SecureBlue offers some OTC drugs through Medical Assistance (Medicaid) at no cost to you and without a prescription. These OTC drugs are listed in this Drug List.

16. Does SecureBlue cover non-drug OTC products?

SecureBlue covers some non-drug OTC products through Medical Assistance (Medicaid). These non-drug OTC products are listed in this Drug List.

17. Can I get my drugs through Long-Term Supply?

- Long-Term Supply. We offer a way to get a long-term supply of "maintenance" drugs on our plan's Drug List. (Maintenance drugs are drugs that you take on a regular basis, for a chronic or long-term medical condition.)

For more information about getting drugs through long-term supply, please call Member Services at the number listed at the bottom of this page.

18. What is your copay?

You can read the SecureBlue Drug List to learn about the copay for each drug.

A copay is an amount you may be required to pay as your share of the cost of a prescription drug. A copay is usually a set amount, rather than a percentage. For example, you might pay \$1 or \$6 for a prescription drug.

SecureBlue members living in nursing homes or other long-term care facilities will have no copays. Some members getting long-term care in the community will also have no copays.

The Drug List includes copay listed by tiers.

- Tier 1 Generic drugs have the lowest copay. The copay is from \$0 to \$3.30, depending on your income and level of Medical Assistance (Medicaid) eligibility.
-

If you have questions, please call SecureBlue Member Services at 651-662-6013 or toll free at 1-888-740-6013, TTY/TDD 711, seven days a week, 8 a.m. to 8 p.m. The call is free. **For more information**, visit bluecrossmn.com/secureblue.

- Tier 1 Brand drugs have a higher copay. The copay is from \$0 to \$8.25, depending on your income and level of Medical Assistance (Medicaid) eligibility.
- OTCs have a \$0 copay.

List of Covered Drugs

The list of covered drugs that begins on the next page gives you information about the drugs covered by SecureBlue. If you have trouble finding your drug in the list, turn to the *Index* that begins on page 117.

The first column of the table lists the name of the drug. Generic drugs are listed in lower-case italics (e.g., *metformin*), brand name drugs are capitalized (e.g., LANTUS, and OTC drugs and products are listed in lower case (e.g., prilosec). The information in the “Necessary actions, restrictions, or limits on use” column tells you if SecureBlue has any rules for covering your drug.

Here are the meanings of the codes used in the “Necessary actions, restrictions, or limits on use” column:

1 = Generic and Brand Drugs

BD = Drugs that may be covered under Medicare Part B or Part D depending on the circumstance. These drugs require prior authorization to determine coverage under Part B or Part D. Information may need to be provided that describes the use or the place where the drug is received to determine coverage.

PA = Prior Authorization

QL = Quantity limit

ST = Step Therapy

^ = 90 day supply allowed on certain medications

* = Limited Distribution Drug. This prescription may be available only at certain pharmacies. For more information consult your Pharmacy Directory or call Member Services at 1-888-740-6013, seven days a week, 8 a.m. to 8 p.m. TTY users should call 711.

= High Risk Medication (HRM). Medicine that may be unsafe in patients greater than 65 years of age. Our formulary does include coverage for some of these drugs, but alternatives may be found in lower co-pay tiers. Please discuss with your doctor if there are alternatives to these medications that would be appropriate for you to use.

List of Drugs by Drug Type

The drugs in this section are grouped into categories by type. For example, if you are taking a medicine for migraines, you should look in the “Antimigraine Agents” category. That is where you will find drugs that treat migraines.

If you have questions, please call SecureBlue Member Services at 651-662-6013 or toll free at 1-888-740-6013, TTY/TDD 711, seven days a week, 8 a.m. to 8 p.m. The call is free. **For more information**, visit bluecrossmn.com/secureblue.
