

Additional Standard HSA Preventive Drug List

Effective January 1, 2018

Employers can elect to include an additional HSA Preventive Drug coverage feature with your prescription benefit plan. Below is the list of medications available under your additional HSA Preventive Drug coverage. This list includes preventive drugs that are available in addition to the Standard Drug List and the ACA Preventive Drug List. Check your benefit booklet to find out if the Additional HSA Preventive Drug List applies to your plan.

The actual cost of the medication will be applied toward the preventive benefit offered by your employer, allowing you to receive coverage even if you have not met your deductible.

Benefits will be provided in accordance with U.S. Department of the Treasury and Internal Revenue Service (IRS) guidance with Health Spending Accounts (HSAs) and qualified High Deductible Health Plans (HDHPs). This list will be reviewed periodically and is subject to change.

The drugs listed below are grouped into broad categories. Each category includes an alphabetical list of drugs. Generic drugs are available for many of the brands noted on this list. Please verify with your plan if a generic drug must be tried before filling a brand version of a drug. Please refer to your benefit materials for coverage details and the plan website for current information as this publication is subject to change.
