

Drug Exclusion Strategy – Alternative Drug List

Effective 1/1/19

Below is a list of medicines by drug category that may be excluded from coverage under your prescription drug benefit. In most cases, if you fill a prescription for any of the drugs listed under the Excluded Medications column, you will pay the full retail price. This list will be reviewed annually and is subject to change at any time.

Take action to avoid paying full price. If you are currently using one of the excluded medications, please ask your doctor to consider writing a new prescription for one of the preferred alternatives.
