

# Additional Standard HSA Preventive Drug List

## Effective January 1, 2019

Employers can elect to include an additional HSA Preventive Drug coverage feature with your prescription benefit plan. Below is the list of medications available under your additional HSA Preventive Drug coverage. This list includes preventive drugs that are available in addition to the Standard Drug List and the ACA Preventive Drug List. Check your benefit booklet to find out if the Additional HSA Preventive Drug List applies to your plan.

The actual cost of the medication will be applied toward the preventive benefit offered by your employer, allowing you to receive coverage even if you have not met your deductible.

*Generic prescription drugs are shown in lower-case boldface type. Most generic drugs are followed by a reference brand drug in (parentheses). Some generic products have no reference brand. Brand prescription drugs are shown in capital letters followed by the generic name. Generic medicines are available for many of the brand-name drugs listed though may not be available in all strengths.*
