Blue Cross and Blue Shield of Kansas is an independent licensee of the Blue Cross Blue Shield Association. BLUE CROSS®, BLUE SHIELD® and the Cross and Shield Symbols are registered service marks of the Blue Cross Blue Shield Association, an association of independent Blue Cross and Blue Shield Plans. AllianceRx Walgreens Prime provides pharmacy benefits and is not affiliated with Blue Cross and Blue Shield of Kansas.

Introduction

The attached Blue Cross and Blue Shield of Kansas (BCBSKS) ResultsRx Covered Drug List shows covered drugs for a broad range of diseases.

Generic drugs are shown in lower-case boldface type. Most generic drugs are followed by a reference brand drug in (parentheses). Some generic products have no reference brand.

Brand prescription drugs are shown in capital letters followed by the generic name.

The BCBSKS Covered Drug List is organized into broad categories (e.g. anti-infective drugs). Within most categories, drugs are sub-grouped by drug class (e.g. penicillins) or by use for a specific medical condition (e.g. diabetes).

Members are encouraged to show this list to their physicians and pharmacists. Physicians are encouraged to prescribe drugs on this list, when right for the member. However, decisions regarding therapy and treatment are always between members and their physician.

How Drugs are Selected for Coverage and Tier Placement

Covered drugs on this list are selected and placed into tiers (refer to Member Prescription Benefit section) based on the recommendations of a Pharmacy and Therapeutics (P&T) Committee made up of physicians and pharmacists from throughout the country. The committee, which includes at least one representative from the health insurer or claims administrator of your health plan, reviews prescription drugs regulated by the U.S. Food and Drug Administration (FDA) based on safety, efficacy, and uniqueness. Once drugs are deemed appropriate for coverage, and safety and efficacy have been evaluated, cost may be considered to determine final tier placement and coverage requirements.

Drugs are reviewed by the P&T Committee when newly approved by the FDA and at least annually after initial review. Drug coverage is subject to change at any time but the drug list will be updated quarterly. There are many reasons why drug coverage or tier placement may change. Examples include:

- The tier level of a medication included on the medication list may increase (change to a higher tier or non-covered) when an FDA-approved bioequivalent generic medication becomes available
- Change in the cost of the medication and/or in the classification of the medication by the U.S. Food and Drug Administration (FDA) or nationally-recognized medication databases (e.g., Medispan)

Coverage is limited to prescription drugs approved by the Food and Drug Administration (FDA) as evidenced by a New Drug Application (NDA), Abbreviated New Drug Application (ANDA) or Biologics License Application (BLA) on file. Any legal requirements or group-specific benefits for coverage will supersede this (e.g. preventive drugs per the Affordable Care Act).

Newly marketed prescription drugs will not be covered until the P&T Committee has had an opportunity to review the drug to determine whether the drug will be covered and, if so, which tier will apply based on safety, efficacy and the availability of other products within that class of drugs.

Formulary Tiers

Tier placement of prescription medications on the ResultsRx Covered Drug List may be determined by the effectiveness and safety of the medication, the cost of the medication, and /or the classification of the medications by the U.S. Food and Drug Administration (FDA) or nationally-recognized medication databases (e.g., Medispan). The plan design determines the member's payment obligation.

Definitions for the five-tiered benefit structure (this is one example of the formulary tiers available – other tier structures exist):

- **Tier 1:** Generics

- **Tier 2:** Preferred Brands
- **Tier 3:** Non-Preferred Brands
- **Tier 4:** Preferred Specialty
- **Tier 5:** Non-Preferred Specialty

Note:

Depending on your benefit plan, drugs can either be in these tiers or you may have fewer tiers (e.g. all generics in one tier). To verify your payment amount for a drug, please call the phone number on the back of your ID card.

Generic medications

In most cases, choosing a generic medication equivalent, when available, will mean significant savings to you. We encourage you to discuss with your physician whether a generic alternative is available as these medications represent safe, effective treatment options. Especially in the case of medications that are taken daily and refilled frequently, you will experience the long-term savings of a lower medication payment month after month. If you choose a brand name prescription medication and a generic equivalent is available, you may be subject to a reduced benefit and a higher out-of-pocket expense.

How member payment is determined

Generally, each prescription drug product is placed into one of up to five member payment tiers: Generic (Tier 1), Preferred Brand (Tier 2), Non-Preferred Brand (Tier 3), Preferred Specialty (Tier 4) and Non-Preferred Specialty (Tier 5).

Your pharmacy benefit includes coverage for many prescription drugs, although some exclusions may apply. For example, drugs indicated for cosmetic purposes, e.g., Propecia, for hair growth, may not be covered. Drugs that have not received FDA approval are not covered. Prescription products that have over-the-counter (OTC) equivalents may not be covered. Drugs that are not FDA-approved for self-administration may be available through your medical benefit.

Coverage considerations

Most prescription drug benefit plans provide coverage for up to a 30-day supply of medication, with some exceptions. Your plan may also provide coverage for up to a 90-day supply of maintenance medications. Maintenance medications are those drugs you may take on an ongoing basis for conditions such as high blood pressure, diabetes or high cholesterol. Some plans may exclude coverage for certain agents or drug categories, like those used for erectile dysfunction or weight loss.

Specialty Drugs: Certain medical conditions may require the use of a “Specialty Drug.” These drugs typically meet one or more of the following characteristics:

- High cost due to treatment of complex conditions
- Self-injected, inhaled or taken orally
- Special handling or storage
- Strict compliance and patient support
- Additional education and support required from a health care professional
- Usually not stocked at retail pharmacies
- May only be available through limited distribution arrangements

For the most current list of specialty drugs visit www.bcbsks.com.

Affordable Care Act: Please note, some drugs may have limited or \$0 cost-sharing under the Affordable Care Act; examples of categories of drugs that may be subject to limited or \$0 cost share include aspirin, fluoride supplements, folic acid supplements, iron supplements, statins, tobacco cessation, breast cancer prevention, oral generic contraceptive drugs and some contraceptive devices. If you do not find the drug you are searching for, contact BCBSKS to find out if the drug is available over the counter or is covered under your medical benefit.

Over-the-counter exclusions: Your benefit plan may not provide coverage for prescription medications that have an over-the-counter version. You should refer to your benefit plan material for details about your particular benefits.

Utilization Management

Preauthorization (PA): Your benefit plan may require preauthorization for certain drugs. This means that your doctor will need to submit a preauthorization request for coverage of these medications, and the request will need to be approved before the medication will be covered under your plan. For the medications listed in this document, if a preauthorization is commonly required, it will generally be noted next to the medication with a dot under the preauthorization column. Some plans may have preauthorization on additional medications beyond those noted in this document. Refer to your benefit plan materials for details about your particular benefits.

Step Therapy (ST): Your benefit plan may include a step therapy program. This means you may need to try another proven, cost-effective medication before coverage may be available for the drug included in the program. Many brand drugs have less expensive generic or brand alternatives that might be an option for you. For the medications listed in this document, if a step therapy is commonly required, it will generally be noted next to the medication with a dot under the step therapy column. Some plans may have step therapy programs on additional medications beyond those noted in this document. Refer to your benefit plan materials for details about your particular benefits.

Dispensing Limits (DL): Drug dispensing limits help encourage medication use as intended by the FDA. Dispensing limits are placed on medications in certain drug categories. For the medications listed in this document, if a dispensing limit applies, it will generally be noted next to the medication with a dot under the dispensing limits column. Limits may include quantity of covered medication per prescription, quantity of covered medication in a given time period, coverage only for members within a certain age range, and coverage only for members of a specific gender. If your doctor prescribes a greater quantity of medication than what the dispensing limit allows, you can still get the medication. However, you will be responsible for the full cost of the prescription beyond what your coverage allows.*

*Please note: For certain controlled substance medications, some state laws may not allow coverage by a health benefit plan of such medication if dispensed in a quantity beyond what the dispensing limit allows. You will be responsible for the full cost of the prescription with no benefits applied if the dispensed quantity exceeds the dispensing limit.

Remember, medication decisions are between you and your doctor. Only you and your doctor can determine which medication is right for you. Discuss any questions or concerns you have about medications you are taking or are prescribed with your doctor. BCBSKS does not provide health care services and, therefore, cannot guarantee any results or outcomes.

How to use this list

Generic drugs are shown in lower-case **boldface** type. Most generic drugs are followed by a reference brand drug in (parentheses). Some generic products have no reference brand.

Example: **atorvastatin** (Lipitor)

Brand drugs are listed in all CAPITAL letters.

Example: PROAIR HFA

- Generics are marked with a “p” and shown in lower-case **boldface** type
- Preferred Brands are marked with a “P” and shown in all CAPITAL letters
- Non-Preferred Brands are marked with an “NP” and shown in all CAPITAL letters
- Preferred Specialty Drugs are marked with a “p” or “P” and shown as lower-case **boldface** type or in all CAPITAL letters. These drugs are also marked with a dot in the Specialty column.
- Non-Preferred Specialty Drugs are marked with an “NP” and shown as lower-case **boldface** type or in all CAPITAL letters. These drugs are also marked with a dot in the Specialty column.

Drugs that are denoted with a “+” along with the tier designation in the Prescription Drug List indicate group specific coverage. Please refer to your benefit booklet for coverage details.

ENGERIX-B- hepatitis b vaccine (recombinant) susp 20 mcg/ml	P					GARDASIL 9- human papillomavirus (hpv) 9-valent recomb vac im susp	P				
ENGERIX-B- hepatitis b vaccine (recombinant) 10 mcg/0.5ml	P					GARDASIL 9- human papillomavirus (hpv) 9-valent recomb vac susp pref syr	P				
ENGERIX-B- hepatitis b vaccine (recombinant) 20 mcg/ml	P					HAVRIX- hepatitis a vaccine inj susp 720 el unit/0.5ml	P				
FLUAD 2019-2020- influenza vac type a&b surface ant adj susp pref syr 0.5 ml	P					HAVRIX- hepatitis a vaccine inj susp 1440 el unit/ml	P				
FLUARIX QUADRIVALENT 2019- influenza virus vac split quadrivalent susp pref syr 0.5ml	P					HEPLISAV-B- hepatitis b vaccine recomb adjuvanted pref syr 20 mcg/0.5ml	P				
FLUBLOK QUADRIVALENT 2019- influenza vac recomb ha quad pf soln pref syr 0.5 ml	P					HEPLISAV-B- hepatitis b vaccine recombinant adjuvanted 20 mcg/0.5ml	P				
FLUCELVAX QUADRIVALENT 20- influenza vac tiss-cult subunt quad susp pref syr 0.5 ml	P					HIBERIX- haemophilus b polysaccharide conjugate vac for inj 10 mcg	P				
FLUCELVAX QUADRIVALENT 20- influenza vac tissue-cultured subunit quadrivalent im susp	P					IMOVAX RABIES (H.D.C.V.)- rabies virus vaccine, hdc inj	P				
FLULAVAL QUADRIVALENT 201- influenza virus vac split quadrivalent susp pref syr 0.5ml	P					IPOL INACTIVATED IPV- poliovirus vaccine, ipv injection	P				
FLULAVAL QUADRIVALENT 201- influenza virus vaccine split quadrivalent im inj	P					M-M-R II- measles, mumps & rubella virus vaccines for inj	P				
FLUZONE HIGH-DOSE PF 2019- influenza virus vac split high-dose pf susp pref syr 0.5ml	P					MENACTRA- meningococcal (a, c, y, and w-135) conjugate vaccine inj	P				
FLUZONE QUADRIVALENT 2019- influenza virus vac split quadrivalent susp pref syr 0.25 ml	P					MENVEO- meningococcal (a, c, y, and w-135) oligo conj vac for inj	P				
FLUZONE QUADRIVALENT 2019- influenza virus vac split quadrivalent susp pref syr 0.5ml	P					PEDVAX HIB- haemophilus b polysaccharide conj vac im susp 7.5 mcg/0.5 ml	P				
FLUZONE QUADRIVALENT 2019- influenza virus vaccine split quadrivalent im inj	P					PNEUMOVAX 23- pneumococcal vaccine polyvalent inj 25 mcg/0.5ml	P				
FLUZONE QUADRIVALENT 2019- influenza virus vaccine split quadrivalent inj 0.5 ml	P					PNEUMOVAX 23/1 DOSE- pneumococcal vaccine polyvalent inj 25 mcg/0.5ml	P				
						PREVNAR 13- pneumococcal 13-valent conjugate vaccine inj	P				
						PROQUAD- measles-mumps-rubella-varicella virus vaccines for susp	P				
						RABAVERT- rabies vaccine, pcec for inj	P				

Drug Name	Tier Designation	Specialty	Prior Authorization	Step Therapy	Quantity Limits
RECOMBIVAX HB- hepatitis b vaccine (recombinant) susp 5 mcg/0.5ml	P				
RECOMBIVAX HB- hepatitis b vaccine (recombinant) susp 10 mcg/ml	P				
RECOMBIVAX HB- hepatitis b vaccine (recombinant) susp 40 mcg/ml	P				
ROTARIX- rotavirus vaccine, live for oral susp	P				
ROTATEQ- rotavirus vaccine, live oral pentavalent soln	P				
SHINGRIX- zoster vac recombinant adjuvanted for im inj 50 mcg/0.5ml	P				
TRUMENBA- meningococcal group b vac (recomb) im susp prefilled syr	P				
TWINRIX- hep a-hep b vaccine susp pref syr 720-20 elu-mcg/ml	P				
VAQTA- hepatitis a vaccine inj susp 25 unit/0.5ml	P				
VAQTA- hepatitis a vaccine inj susp 50 unit/ml	P				
VARIVAX- varicella virus vac live for subcutaneous inj 1350 pfu/0.5ml	P				
VIVOTIF- typhoid vaccine cap delayed release	NP				
ZOSTAVAX- zoster vaccine live for subcutaneous susp 19400 unit/0.65ml	P				
TOXOIDS					
ADACEL- tet tox-diph-acell pertuss ad inj 5-2-15.5 lf-lf-mcg/0.5ml	P				
BOOSTRIX- tet tox-diph-acell pertuss ad inj 5-2.5-18.5 lf-lf-mcg/0.5ml	P				
DAPTACEL- diph, acellular pert & tet tox inj 15 lf-23 mcg-5 lf/0.5ml	P				
DIPHThERIA/TETANUS TOXOID- diphtheria-tetanus tox adsorbed (dt) im inj 25-5 unit/0.5ml	P				
INFANRIX- diph, acellular pert & tet tox inj 25 lf-58 mcg-10 lf/0.5ml	P				
KINRIX- diph-tetanus tox ad-acell pert & polio virus, ipv vac inj	P				

Drug Name	Tier Designation	Specialty	Prior Authorization	Step Therapy	Quantity Limits
PEDIARIX- diph-tetanus tox-acell pert-hepatitis b-polio ipv vac inj	P				
PENTACEL- diph-ac per-tet tox ad-poliov-haemoph b poly vac for im susp	P				
QUADRACEL- diph-tetanus tox ad-acell pert & polio virus, ipv vac inj	P				
TDVAX- tetanus-diphtheria toxoids (td) inj 2-2 lf/0.5ml	P				
TENIVAC- tetanus-diphtheria toxoids (td) inj 5-2 lfu	P				
BIOLOGICALS MISC					
GRASTEK- timothy grass pollen allergen ext sl tab 2800 bau	NP		•		•
ODACTRA- dust mite mixed ext sl tab 12 sq-hdm	NP		•		•
ORALAIR- grass mixed pollen ext sl tab 300 ir (index of reactivity)	NP		•		•
RAGWITEK- short ragweed pollen allergen extract sl tab 12 amb a 1-u	NP		•		•
ANTINEOPLASTIC AGENTS					
ANTINEOPLASTICS					
abiraterone acetate tab 250 mg (Zytiga)	p	•	•		•
ACTIMMUNE- interferon gamma-1b inj 100 mcg/0.5ml (2000000 unit/0.5ml)	P	•			
AFINITOR- everolimus tab 2.5 mg	P	•	•		•
AFINITOR- everolimus tab 5 mg	P	•	•		•
