

# Generics Plus Drug Guide

October 2020

Please consider talking to your doctor about prescribing preferred generic and brand medications, which may help reduce your out-of-pocket costs. This list may help guide you and your doctor in selecting an appropriate medication for you.

For questions about the Prescription Drug Guide, call the customer service number on the back of your ID card. The Prescription Drug Guide is regularly updated.

To search for a drug name within this PDF document, use the **Control** and **F** keys on your keyboard, or go to **Edit** in the drop-down menu and select **Find/Search**. Type in the word or phrase you are looking for and click on **Search**.

Prime Therapeutics LLC, an independent company, provides pharmacy benefit management services for Blue Cross and Blue Shield of Alabama, an independent licensee of the Blue Cross and Blue Shield Association.

## Introduction

The Generics Plus Drug Guide includes all Preferred Brand and Preferred Specialty drugs and a partial listing of Generic drugs. Brand name drugs not listed in this Generics Plus Drug Guide are Non-Preferred. Certain drugs may not be added as Preferred for reasons including safety or effectiveness, or because a similar, more cost-effective drug is already available as a Preferred or Generic drug. New brand and specialty drugs are Non-Preferred until reviewed and approved for inclusion by the Pharmacy and Therapeutics (P&T) Committee.

Physicians are encouraged to prescribe drugs listed in this Generics Plus Drug Guide. Members are encouraged to show this Generics Plus Drug Guide to their physician and pharmacist.

## Member Prescription Benefit

The Blue Cross prescription benefit is multi-tiered, placing prescription drugs into one of the following copayment levels.

**Tier 1 – Lowest copayment** – Generic drugs and select Preferred Brand drugs— listed and unlisted generic drugs

**Tier 2 – Middle copayment** – Preferred Brand drugs – all shown in the Drug Guide

**Tier 3 – Highest copayment** – Non-Preferred Brand drugs – unlisted

**Tier 4 – Preferred Specialty** (if applicable) – all shown in the Drug Guide

Coverage is limited to prescription products approved by the Food and Drug Administration (FDA) as evidenced by a New Drug Application (NDA), Abbreviated New Drug Application (ANDA), or Biologics License Application (BLA) on file. Any legal requirements or group specific benefits for coverage will supersede this (e.g., preventive drugs per the Affordable Care Act).

In addition, coverage is not provided for Non-Preferred drugs. The drug benefit includes most prescription drug classes, although some restrictions and exclusions apply. For example, investigational drugs and drugs indicated for cosmetic purposes (e.g., Propecia for hair growth) are not covered. Coverage and copayment levels vary depending on the plan. Drugs that require Prior Authorization, Step Therapy, or that have Dispensing Limits are noted in the Generics Plus Drug Guide.

## Pharmacy and Therapeutics (P&T) Committee

The P&T Committee is comprised of independent practicing physicians and pharmacists. The Committee meets at least quarterly. Decisions to add or remove drugs from the Generics Plus Drug Guide are based on the drug's safety, efficacy, uniqueness and cost.

## **Brand Drugs and Generic Drugs**

### **Classification**

Prescription drugs are classified as either a Brand drug or a Generic drug. Blue Cross uses the Brand or Generic status provided by a nationally recognized company providing drug product information. The Brand/Generic status for a specific drug/specific marketer can sometimes change over the life of a product in the marketplace and change from Brand to Generic (or Generic to Brand). Such changes might change your copayment share. Brand drug or Generic drug status is never based upon a product having a trade name. Generic drugs often have trade names.

### **Generic Substitution**

Blue Cross encourages generic utilization as a way to provide high quality drugs at a reduced cost. Generic drugs are as safe and effective as their brand counterparts, but are usually less expensive. Generic drugs are manufactured under the same strict requirements of FDA's current Good Manufacturing Practice regulations required for Brand drugs and cover the manufacturing, identity, strength, purity and quality.

An FDA-approved Generic drug may be substituted for the Brand counterpart when it:

- Contains the same active ingredient(s) as the brand drug
- Is identical in strength, dosage form, and route of administration
- Is therapeutically equivalent and can be expected to have the same clinical effect and safety profile

To encourage use of Generic drugs, Tier 2 Preferred Brand drugs typically move to Tier 3 after an equivalent generic version becomes available.

### **Specialty Drugs**

Specialty drugs are used in the treatment of medical conditions such as hepatitis, multiple sclerosis and rheumatoid arthritis. Specialty drugs may be oral or injectable medications that can either be self-administered or administered by a health care professional.

Some Blue Cross members must obtain their specialty drugs from the Pharmacy Select Network as the preferred provider. If the preferred provider is not utilized you may be responsible for up to 100 percent of the drug cost. Your plan may have a different coverage level for self-administered specialty drugs. If you have questions about your coverage for specialty drugs or your prescription drug benefit, call the number on the back of your ID card.

### **Compound Drugs**

Compound drugs are defined as a drug product made or modified to have characteristics that are specifically prescribed for an individual patient when commercial drug products are not available or appropriate. To be eligible for coverage, compounded drugs must contain at least one FDA-approved prescription ingredient and must not be a copy of a commercially available product. All compounded drugs are subject to review and may require prior authorization. Drugs used in compounded drugs may be subject to additional coverage criteria and utilization management edits. Compounds are covered only when medically necessary. Compound drugs are always classified as the highest cost-sharing non-specialty drug Tier.

## Contraceptives

Some or all of the contraceptive methods or prescription drugs listed in this Drug Guide may not be covered under your plan because of your employer's religious beliefs. To find out if contraceptive methods and prescription drugs are excluded, you may find this information in the exclusions section of your benefit booklet or you may contact your group administrator.

## Utilization Management

Your plan is committed to supporting proper selection and use of drugs for its members. To help assure these goals are met, several programs have been developed to promote drug selection that encourages both effectiveness and safety. Preferred generic or brand drugs requiring Prior Authorization or Step Therapy, or drugs with Dispensing Limits will be noted in the Therapeutic Class Drug List portion of the Generics Plus Drug Guide.

### Prior Authorization

Some drugs require Prior Authorization (**PA**) because of their high potential for misuse or overuse. Drugs selected for Prior Authorization may require that specific clinical criteria are met before the drugs will be covered under a member's prescription benefit. Approval is required for claims to process at network pharmacies.

### Dispensing Limits

Dispensing Limits (**DL**) identify gender or age restrictions, and/or the maximum quantity that can be dispensed over a specific period of time. Limits are in place to encourage appropriate drug utilization, enhance member outcomes, and reduce drug benefit costs. Limits are typically developed based upon FDA-approved drug labeling.

### Step Therapy

Step Therapy (**ST**) programs help manage the cost of expensive drugs by redirecting members to safe, effective and less expensive alternatives. Drugs included in the Step Therapy program require a more cost-effective prerequisite drug be tried before the Step Therapy drug will be approved for coverage. If the member meets the prerequisite requirement, the requested drug will be covered automatically without requiring review. If prerequisite drugs are not found in the claims history, Prior Authorization may be required. Drugs and drug categories included in the Step Therapy program are subject to change.

### Notice

The purpose of the Generics Plus Drug Guide is to provide a guide to coverage. The Generics Plus Drug Guide is not intended to dictate to physicians how to practice medicine. Physicians should exercise their medical judgment in providing the care they feel is most appropriate for their patients.

Neither this Generics Plus Drug Guide, nor the successful adjudication of a pharmacy claim, is guarantee of payment.

## Abbreviation Key

<b>aer</b> .....	aerosol
<b>cap</b> .....	capsules

BD INSULIN SYRINGE ULTRA- – insulin syringe/needle u-100 1 ml 31 x 5/16"	2					BD PEN NEEDLE/NANO/ULTRA – insulin pen needle 32 g x 4 mm (1/6" or 5/32")	2				
BD INSULIN SYRINGE ULTRA- – insulin syringe/needle u-100 0.3 ml 31 x 5/16"	2					BD PEN NEEDLE/ORIGINAL/UL – insulin pen needle 29 g x 12.7 mm (1/2")	2				
BD INSULIN SYRINGE ULTRAF – insulin syringe/needle u-100 1/2 ml 31 x 5/16"	2					BD PEN NEEDLE/SHORT/ULTRA – insulin pen needle 31 g x 8 mm (1/3" or 5/16")	2				
BD INSULIN SYRINGE ULTRAF – insulin syringe/needle u-100 1/2 ml 30 x 1/2"	2					BD SAFETYGLIDE INSULIN SY – insulin syringe/needle u-100 0.3 ml 31 x 15/64"	2				
BD INSULIN SYRINGE/U-500/ – insulin syringe/needle u-500 0.5 ml 31g x 6mm (15/64")	2					BD SAFETYGLIDE INSULIN SY – insulin syringe/needle u-100 1/2 ml 31 x 15/64"	2				
BD INSULIN SYRINGE/0.3ML/ – insulin syringe/needle u-100 0.3 ml 29 x 1/2"	2					BD SAFETYGLIDE INSULIN SY – insulin syringe/needle u-100 1 ml 31 x 15/64"	2				
BD INSULIN SYRINGE/0.5ML/ – insulin syringe/needle u-100 1/2 ml 29 x 1/2"	2					BD SYRINGE LUER-LOK/1ML – syringe (disposable) 1 ml	2				
BD INSULIN SYRINGE/1ML/27 – insulin syringe/needle u-100 1 ml 27 x 1/2"	2					BD VEO INSULIN SYRINGE UL – insulin syringe/needle u-100 0.3 ml 31 x 15/64"	2				
BD INSULIN SYRINGE/1ML/29 – insulin syringe/needle u-100 1 ml 29 x 1/2"	2					BD VEO INSULIN SYRINGE UL – insulin syringe/needle u-100 1/2 ml 31 x 15/64"	2				
BD LANCET ULTRAFINE 30G – lancets	2					BD VEO INSULIN SYRINGE UL – insulin syringe/needle u-100 1 ml 31 x 15/64"	2				
BD LANCET ULTRAFINE 33G – lancets	2					FINGERSTIX LANCETS – lancets	2				
BD MICROTAINER LANCETS – lancets	2					MICROLET LANCETS – lancets	2				
BD PEN NEEDLE/MICRO/ULTRA – insulin pen needle 32 g x 6 mm (1/4" or 15/64")	2					MICROLET NEXT – lancet devices	2				
BD PEN NEEDLE/MINI/ULTRA- – insulin pen needle 31 g x 5 mm (1/5" or 3/16")	2					SINGLE-LET – lancets	2				
BD PEN NEEDLE/NANO 2ND GE – insulin pen needle 32 g x 4 mm (1/6" or 5/32")	2					<b>MISCELLANEOUS DRUGS</b>					
						azathioprine tab 50 mg (Imuran)	1				
						buprenorphine hcl-naloxone hcl sl film 2-0.5 mg (base equiv) (Suboxone)	1				•

Drug Name	Tier Designation	Specialty	Prior Authorization	Step Therapy	Dispensing Limits	Drug Name	Tier Designation	Specialty	Prior Authorization	Step Therapy	Dispensing Limits
buprenorphine hcl-naloxone hcl sl film 4-1 mg (base equiv) (Suboxone)	1				•	mycophenolate mofetil cap 250 mg (Cellcept)	1
