

Quantity Limits

Quantity limits identify the maximum quantity that can be dispensed over a specific period of time. Limits are in place to encourage appropriate drug utilization and are typically developed based upon FDA drug labeling.

The following drugs, including generic versions if available, have dispensing limits. This is not intended as a complete list of all drugs with dispensing limits. Individual benefits will vary by policy. Please refer to MyPrime.com to view the BlueCareSM covered drug list and for the most complete pricing and benefit information. This list is subject to change.
