

**Quantity Limits  
Program Information  
(Effective January 1, 2018)**

**Quantity Limits**

To help with safe and effective drug use, some drugs have limits on how much of a particular drug you can get for a specific time period.

If there is medical reason why you need an amount that is greater than what is allowed, your physician can fill out a Quantity Limit prior authorization form for you and send it to Prime Therapeutics. This form can be found on the MyPrime.com website.
